Jeremy Duke, founder and chief analyst, Synergy Research Group, observed: "BroadSoft is the leader providing hosted and public cloud call control to the top communication service providers (CSPs) and UCaaS providers globally. BroadSoft continues to be in a unique position as a strategic partner to CSPs. In Synergy's latest report, 'IP PBX – Premise & Hosted/Cloud Call Control,' the installed base of hosted and public cloud call control was measured at 37 million subscribers and licenses – of which BroadSoft maintains a leading position of 45% installed base market share and increased its lead in in the cloud UCaaS new users shipped market share to 49%, nearly half of the total market."

"We are pleased that Synergy Research market data shows that BroadSoft is the global UCaaS market share leader with 49% of new lines shipped for 2016, over twice the nearest player," said Taher Behbehani, chief digital and marketing officer, BroadSoft. "This demonstrates how the BroadSoft Business UC offering and our global communication service providers channel model are resonating with businesses as the market rapidly shifts to the cloud."

BroadSoft increased its leadership position with the 2016 launch of [BroadSoft Business](#), a fully integrated portfolio of enterprise-ready cloud unified communications, team collaboration and contact center applications. BroadSoft Business can scale to all market segments, and includes three core applications: UC-One, Team-One, and CC-One, with BroadSoft Hub providing artificial intelligence across the entire platform so users can access business critical information and applications they need in one place.
